

## Vertical lift storage with high-speed retrieval!

### **EFFIMAT®**

Revolutionizing the picking of small parts. Flexible and rapid with an output of up to 250 boxes an hour! Boxes are available in various heights & are sub-dividable.

### **INTEGRATION**

These units can easily be used as a standalone solution or integrated as part of an automated system, seamlessly connected to additional units, conveyor belts, and robots.

### **AUTOMATED HANDLING**

Intelligent order picking and storage for small and large parts.

### **ZERO DOWNTIME**

Reliable, fast, and safe parts management without picking errors or wasted space.

### **EffiMat®**

Need fast, flexible, and efficient picking?

- **EffiMat®** is four times faster than traditional VLMs
- Operates both vertically & horizontally
- Need-based presentation of boxes

### **Solutions & Applications**

- Distribution
- Commercial
- Education
- Healthcare
- Industrial
- Retail

# Innovative logistics solutions

## **HOSPIMAT™**

Healthcare solutions to declutter and organize bed storage. Our multi-floor bedlift can be built into a new facility or as a retrofit. It can also be added to the outside of existing structures!

## **CLASSICMAT™**

Fast-running traditional vertical lift module (VLM) for heavier/larger items.

Tilt tray function reduces reach depth and provides a comfortable working position for your staff.

Easy integration into existing storage with EffiSoft™ ERP System.
